Allowable Subject Matter

1. Claims 1-7, 9-16, and 18-20 are allowed.
2. The following is an examiner's statement of reasons for allowance: The overall claimed combination of a wearable article having a fever indicator affixed to the outer cover where the fever indicator has a temperature sensitive component covering the indicating component and preventing wetting of the indicating component, and upon wetting by urine the indicating component creates a visible signal is neither anticipated nor rendered obvious by the prior art of record.

Newly cited reference Howell USPN 5197958 teaches a temperature sensitive component covering an indicating component, where when a threshold temperature is reached, the indicating component, which is a color signal, is activated. However, Howell does not provide a teaching of a fever indicator.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
